**2 LIGHT MUSIC** Transform the tinkle of tealights into a full-blown concerto by making A4, black and white photocopies of sheet music. Cut the copies to size, fasten two corners together with tape, and push them into drinking glasses. Be sure to leave ample room around the candle to avoid burning, and never leave candles unattended. *litala glass tumblers, \$18/2, Peter's of Kensington.*

**3 CARD HOLDER** Why not personalise your correspondence by sending postcards bearing your favourite photographs, or junior's latest masterpiece? Most photocopiers have trouble feeding thick paper, so copy onto regular paper, glue the image onto card (thick, glossy 200gsm paper is your best option) and trim to size. If you want to copy straight onto card, copy centres charge around \$2.40/A4 sheet. *Walnut occasional table, \$660, Orson & Blake.*

**4 PLACES, PLEASE** Guests coming round for afternoon tea? Set a fabulous table (and keep cleaning time to a minimum) with easy-to-wipe, laminated A4 photocopies. Match the picture to your dinnerware, or let your imagination run wild! At copy centres, lamination costs around \$2.50/A4 sheet. *Cup and saucer, \$12, coffee mugs, from \$4.50 each, both Peter's of Kensington. Chest of drawers, \$2310, Orson & Blake. >*

**5 DEAR DIARY** Attaching one or a montage of photocopied images adds life and character to a plain diary, address book or photo album. This simple, beautiful touch will make turning to them even more special. Silk photo album, \$178, silk throw, \$175, moleskin address book, \$28, suede diary, \$55, leather note pad, \$199, bench ottoman, \$1385, all Orson & Bake.

**6 WRAP DANCING** Here's a delightfully easy idea – wrapping a bunch of flowers in an A3 photocopy. Still-life blooms look great wrapped around real ones, but any scene from nature will look just as gorgeous. For added effect, attach a sheet of coloured tissue paper around the flowers first. Chest of drawers, \$2310, Orson & Blake.

**7 GIFT FAIR** It's the thought that counts, right? Show them just how much you care by going the extra mile and covering gifts in homemade wrapping paper. Birthday boys and girls will thrill to see their enlarged, smiling faces on mysterious parcels and presents. The finishing touch? A simple card that also celebrates them. Bench ottoman, \$1385, Orson & Blake. **hb**
